Vijay Rupani
Chief Minister,
Government of Gujarat

The development starts from individual unit to national level; our aim is to create Global Platform for the smallest manufacturer of Saurashtra & Kutch region, which can lead to generate greater GDP for the nation.

The success of Make in India concept is also depends on the performance of MSMEs.

The development of textile industry, coconut farming, Auto Park, mining, IT – Electronic are major thrust areas where scopes for the developments are huge. Collective efforts can bring very good results for economical and social growth.

It is also observed that scopes for the bilateral trade development with the African continent, South Asian countries, European and American countries are good. We are strategically working on it so that we can create A Global Trade Exchange Platform in Saurashtra Kutch Region.

I am happy to know that Saurashtra Vepar Udyog Mahamandal is organizing "SVUM 2021 International Trade Show". Over the years, India's foreign trade has come to occupy a pivotal position in the economic scenario and prosperity of the country. The export growth was mainly due to the fact that India's products have become globally competitive and have found new markets. Robust growth of domestic economic activity, especially resurgence of the manufacturing sector, provided the support base for the strong sector specific exports. In overall growth of exports, Gujarat with a share of over 20 percent of India's exports has been in the forefront of country's export performance. This has been possible by the

entrepreneurship and financial acumen of Gujaratis, supported by growth oriented sector specific policies of the state. With highest industrial output in India at -17%, Gujarat is well positioned to partner with the world. Indigenous Technologies which have been developed by Gujarat is very suitable for the world. Global partnerships and tie-ups for technology transfers with Global Industries with MSMEs of Gujarat will play a key role in holistic development of their economy and society at large.

I believe, SVUM 2021 International Trade show will play an important role to connect the buyers and sellers of India with African and Asian Nations.

I welcome all delegates in Gujarat - The manufacturing powerhouse of India.

I also wish the grand success of SVUM 2021 International Trade show to be organized by Saurashtra Vepar Udyog Mahamandal at Rajkot - India.
